Clinton Lead Stays at 5% in Michigan Despite Scoring 2:1 Debate Win
(Clinton 49% - Trump 44% in 2-way and Clinton 46% - Trump 41% in 4-way)

EAST LANSING, Michigan --- Despite the fact that by a 2:1 margin voters in Michigan thought Hillary Clinton won Monday night's debate against Donald Trump, the latest Fox 2 Detroit/Mitchell Poll of Michigan shows former Secretary of State Hillary Clinton leading businessman Donald Trump by a 5 percent margin in a two-way race (49%- 44% with 8% undecided) and in a four-way race that includes Libertarian Party candidate former New Mexico Gov. Gary Johnson and Green Party candidate Dr. Jill Stein. In the four-way race it is Clinton 46%, Trump 41%, Johnson 8%, Stein 1% and 4% undecided.

In the last FOX 2 Detroit/Mitchell Poll conducted August 9-10, Clinton led by 5% in a two-way race (47%-42%) and by 6% in a four-way race (Clinton 45%, Trump 39%, Johnson 7%, Stein 1%, with 8% undecided).

The IVR (automated) poll of 1,956 likely voters in the November 2016 General Election was conducted by Mitchell Research & Communications on September 27, 2016 and has a Margin of Error of + or – 2.2% at the 95% level of confidence.

"The race has stayed the same in Michigan despite the fact that twice as many voters think Clinton won the debate than think that Trump did. Fifty-one percent said Clinton to 25% who said Trump. Clinton leads by five percent in both a two-way and four-way race that includes Libertarian Gary Johnson and Green Party candidate Jill Stein," Steve Mitchell, CEO of Mitchell Research & Communications said.

Eight in ten (80%) of likely voters watched the debate, and of the debate watchers Clinton leads 50%-44%%. She leads by one percent (42%-41%) among non-watchers.

Fifty-one percent say Clinton won, 25% say Trump, 18% called it a tie, and 6% were not sure. Ninety-four percent of Clinton voters say she won compared to only 55% of Trump voters who say he won. A third (33%) of Trump voters said it was a tie compared to only 3% of Clinton's.

Since this is a four-way contest in Michigan, we will examine crosstabs in that contest.

FOX 2 Detroit/Mitchell Poll of Likely Voters
Conducted September 27, 2016

"Clinton continues to dominate with women, leading by 11 percent (48%-37%) while Trump leads with men by 3 percent (46%-43%) Six percent of women are undecided compared to 2% of men. Clinton has only a 3 percent lead with 18-44 year old voters (41%-38%) with 13% of that age group voting for Johnson, and a 17% lead with 65 + voters (55%-38%). Trump leads by 3 percent with 45-64 year olds (46%-43%).

Clinton continues to be stronger with Democrats (91% in the four-way) than Trump is with Republicans (87% in the four-way), but Trump gained two percent with GOP voters since the last survey while Clinton stayed the same. In the four-way contest, Johnson (26%) leads both Trump (23%) and Clinton (24%), but she has gained 18% with these important voter since the last survey.

Other key findings:
- Both Clinton (44% Favorable-51% Unfavorable) and Trump (40%-54%) are very unpopular, with Trump being the least liked. However, Trump has posted a stronger gain since early November.
- More people say jobs/economy (53%) is the most important issue in the presidential campaign than say national defense/terrorism (34%). Thirteen percent are undecided. .

"The race continues to be close, despite Clinton's strong debate performance. bnhas tightened, but with three debates to come, we are likely to still see more volatility in this campaign over the next two months," Mitchell concluded.

Methodology:

Mitchell Research & Communications used a sample of registered voters in the November 2016 Michigan General Election. Our goal is to spread as wide a net as possible to assure we survey voters who may not have voted in elections for a long time. A double filter was used to determine that we were surveying only likely voters.
- First voters had to say they were registered voters. If they were not, the phone call ended.
- Then, they were asked if they were definitely voting, probably voting, not sure yet, or definitely not voting in the November General Election. If they were "definitely not voting" the phone call ended.

Federal law only permits us to call land lines when using automated phoning. Any surveys that doesn't specify if they use cell phones do not use them. Data is weighted to reflect likely voter turnout by gender, age, and race.
