

A SURVEY OF LIKELY NEW HAMPSHIRE REPUBLICAN PRESIDENTIAL PRIMARY VOTERS

January 16th, 2024

Neil Levesque, Executive Director

Tauna Sisco, Ph. D, Faculty Advisor

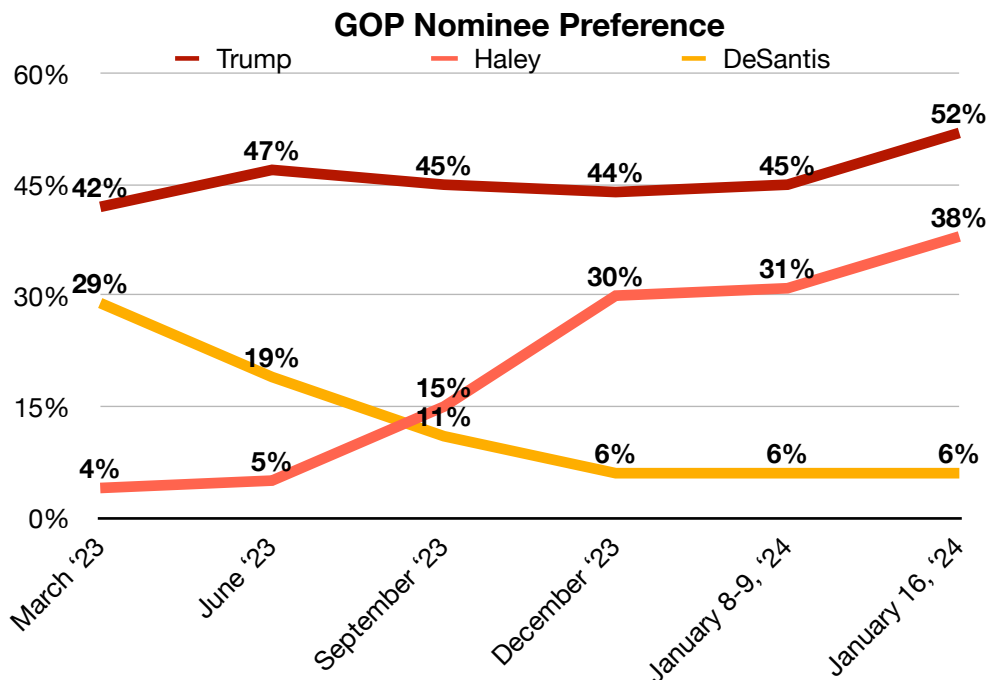

Survey Notes

New Hampshire Institute of Politics Executive Director Neil Levesque summarized the results, saying, “With the Iowa caucuses now behind us, the departures of former New Jersey Governor Chris Christie and entrepreneur Vivek Ramaswamy have left the field to former President Donald Trump, former Ambassador Nikki Haley, and Florida Governor Ron DeSantis. Trump and Haley have split most of the supporters of the former candidates, setting up the final week of the First in the Nation Primary. However, Haley still trails by a significant margin as she faces questions about her decision to skip the New Hampshire Debate, which may deny her the best remaining chance to close the deal with the voters she needs to make up ground on the front runner.”

Former Ambassador Nikki Haley is the primary beneficiary of the departure of former New Jersey Governor Chris Christie and entrepreneur Vivek Ramaswamy. 60% of respondents that say they have changed who they will support based on candidates suspending their campaigns now support Haley. Her support has increased 7 points since last week to 38%.

Former President Donald Trump has gotten a boost from his performance in the Iowa caucuses. 51% of respondents who have changed who they will support based on the Iowa caucuses now support Trump. His support has increased 7 points since last week to 52%.

These results are from a Saint Anselm College Survey Center poll based on online surveys of 1398 New Hampshire Republican Presidential Primary likely voters. Surveys were collected on January 16th, 2024, from cell phone users randomly drawn from a sample of registered voters reflecting the demographic and partisan characteristics of the voting population. Candidates were presented in random order for the ballot preference question. The survey has an overall margin of sampling error of +/- 2.6% with a confidence interval of 95%. The data are weighted for age, gender, geography, and education based on a voter demographic model derived from historical voting patterns, but are not weighted by party registration or party identification.

January 16, 2024 | n=1398 | New Hampshire Republican Presidential Primary Likely Voters | MoE +/- 2.6%

Over the last week, Chris Christie and Vivek Ramaswamy have both suspended their campaigns. Does this change who you will support in the upcoming primary?

		Frequency	Percent
Yes		244	17
No		1154	83
Total		1398	100

Earlier this week, Donald Trump won the Iowa caucuses with 51%, followed by Ron DeSantis with 21% and Nikki Haley with 19% . Does this change who you will support in the upcoming primary?

		Frequency	Percent
Yes		65	5

About SACSC

The Saint Anselm College Survey Center (SACSC) was founded in the wake of the 2016 election, and launched its first poll in February 2018 as the midterm elections were getting underway. Housed within the New Hampshire Institute of Politics at Saint Anselm College, the Center conducts quarterly polls of New Hampshire voter attitudes and additional polls as circumstances warrant. This research supports the academic mission of the College, and provides students with a practical education in survey techniques while providing the public at large with insight into political opinion trends that impact the state's federal and gubernatorial elections. To support its operations, the Center performs commissioned research on behalf of nonprofit organizations and corporations.
